DETAILED ACTION

Claim Rejections - 35 USC § 112

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrase "of nanometer degree" is not understood and therefore is vague and indefinite.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by ***Chen 5,102,598***.

Chen sets forth a blind coated with a photo catalyst comprising slats 12 having a layer of photo catalyst on the surface; wherein the photo catalyst is Titanium Dioxide. The applicant should note that a process by which an apparatus is made is NOT given patentable weight within an apparatus claim. Therefore the process of spraying and/or plating is NOT given patentable weight the instant claims.
